| Gg. Delima No.30A, Janti, Caturtunggal, Kec. Depok, Kabupaten Sleman, Yogyakarta 55281

I am a fresh graduate in Information Systems with one year of experience as a Data Analyst and 2 year as a Junior Web Developer. I have strong expertise in data analysis and visualization, big data processing, and predictive modeling using various tools such as Python, SQL (BigQuery, MySQL), and Microsoft Power BI. Additionally, I have experience in data processing, building efficient data pipelines, and developing interactive dashboards to support business decision-making. With a background in web development using Laravel and CodeIgniter, I can integrate data solutions with web-based systems. I possess strong analytical skills, project management abilities, and solid teamwork capabilities.

Work Experiences

Proyek Freelance <i>Website Programming</i>	Feb 2023 - Present
<ul style="list-style-type: none">Freelancing in UI/UX design, system requirements analysis, website development, and various related tasks using technologies such as Laravel, CodeIgniter, Python, SQL, Power BI and Figma.
